Forecast For The United Kingdom
Issued by Met Office Exeter
at 1600 on Sunday 26 Dec 2021

++ Valid for broadcast between 1800 and 0600

Headline:
Milder with outbreaks of rain moving north. Some fog tonight.

This Evening and Tonight:
Cloudy with outbreaks of rain and drizzle across northern and eastern areas, easing, but then a good deal of low cloud with some fog patches developing. Risk of frost in some western parts. Further rain into the south-west later.

Monday:
Rain in north clearing. Fog and low cloud thinning to allow some bright intervals. Rain in the south-west moving north, then windier with sunny intervals and heavy showers in south.

Outlook for Tuesday to Thursday:
Some bright or sunny spells, but often cloudy with rain spreading eastwards on Tuesday. Becoming windy Wednesday after early fog with further heavy rain moving northeastwards. Mild to very mild.
